George Washington hatchets at August's.

Pearse & Son have received Harper's for March.

If you want a new wringer or one repaired call on the manufacturers, the American Wringer company, 493 State street.

Mrs. R. B. Dwight of Avon street has recovered from an attack of the grip and her sister, Mrs. Lyon, is quite ill with the same disease.

Mr. E. E. Hallock, for the past three years special agent of the Aetna Life at the home office, has been appointed general agent at New Haven, to succeed Weld & Son—Hartford Times.

The announcement has just been made of the marriage of Miss Pauline Swords, daughter of Mr. and Mrs. William H. Swords of South Norwalk, and W. Shelton Stevenson, son of Colonel and Mrs. William H. Stevenson of Bridgeport. The event will take place at high noon to-day in South Norwalk. The engagement is announced of Miss May Shipman, daughter of Judge Nathaniel Shipman, and the Rev. Mr. Penrose of Walla Walla, Wash., who has been heard in Hartford frequently in Dr. Parker's pulpit. Mr. Penrose is an old friend of the Rev. Frank R. Shipman.

The fair of the St. Patrick's Y. M. T. A. B. society last evening was attended by a very large number of young people. The special feature was the "cake walk" by members of the St. John's Catholic club. The cake was won by John Starrs, the "Heavy Sport," and Michael Reynolds, "Graceful Sarah."

The annual banquet of the New Haven Retail Merchants' association will be held at the Tontine hotel this evening. Covers will be laid for about 150 persons. Walter Leigh will preside. Speeches will be made by Mayor Hendrick, Colonel N. G. Osborn, Alexander Troup, Rev. Dr. Smyth, J. D. Dewell, Corporation Counsel Ely, Senator Johnson, Representatives Lewis Elliott and H. G. Newton and representatives of the city papers.

The second reception and social gathering of the winter to be given by the reception committee of '95 of the New Haven Christian Endeavor union will be held this evening in the parlors of the Ferry street church. Miss Emma L. Rhodes, who is president of the Ferry street Y. P. S. C. E., is chairman of the committee of arrangements. At the close of the literary part of the entertainment, refreshments will be served. The Schuetzen Park cars pass within sight of the church. All members of Christian Endeavor societies attending are requested to wear badges.

Good Work Tells.

Messrs. Brown & Berger, architects, can be thoroughly commended as very efficient and capable men in the profession. Their designs are original, tasteful and reliable and their work speaks for itself in the many single residences, business blocks, apartment houses and other buildings in New Haven which they have designed. Their work gives great satisfaction and pleasure to their patrons and is very artistic in all classes and grades of work committed to their care. Mr. Brown was for years with Mr. Stillson and Mr. Berger for seven years with David R. Brown. Their commodious office, 87 Church, Clark building, is a busy place, and this enterprising firm well deserves the success it is winning.

DAIRYMEN OF THE STATE

MEET IN ANNUAL CONVENTION IN THIS CITY

And Discuss Many Questions of Interest and Importance to the Business and the Public—Dr. Jenkins Gives a Very Instructive Paper Regarding Milk—Dr. Bradley Speaks About the Care of Stock. The meeting of the Connecticut Dairymen's association, held yesterday afternoon at Veru hall, was largely attended, prominent dairymen from all over the state, about seventy-five being present.

In the forenoon B. C. Patterson of Torrington spoke on "The Feeding and Care of Cows for Milk," and W. D. Bartholomew of Putnam on "The Sale of Milk." In the afternoon Dr. E. H. Jenkins of New Haven spoke on "The Composition and Supply of Milk." He spoke of the analysis of milk, and said that this analysis shows a gallon of milk to contain besides the fat and other parts seven and one-half pounds of water and one ounce of an ash mineral matter, from which is obtained chloride of potassium. He gave a very clear account of where the necessary minerals and liquids in good milk come from and said that milk is in no sense a secretion, but is liquefied tissue. Nutrients are first built up into flesh or tissue and then by a natural process liquefies into milk. All the ingredients exist in milk in solution and will not filter out or come out by centrifugal force. The butter fat is distributed throughout milk in little globules, which are gathered by the butter maker and made into the golden product for the table. There are various methods for keeping milk, but chiefly four which are accepted as good:

First there is the use of preservatives, such as salicylic acid and borax, but these are not advisable. Second there is pasteurization, that is heating for a long time just below boiling. After this it will keep for a week, and does not retain any germs of disease, such as tuberculosis or typhoid. Third there is sterilization, but this is the poorest method of all, as it renders the milk very indigestible.

Fourth, last and best of all, keep the milk cold. Microbes cannot work at 40 degrees. Let the tables be kept clean, and it will be found that the milk will keep longer than it treated by some more complicated method. Different sections of country, different foods and different cows all tend to change the composition of milk. The laws on adulterations are very unjust. Milk in no two sections of a state can come up to the same standard and while one lot of milk may be as pure as another, it may be deficient in some of the ingredients required by law.

Dr. A. Bradley of Lee, Mass., then spoke on "The Care and Handling of Stock." After he had finished many questions were asked concerning dairy methods. At the conclusion of the meeting a vote of thanks were tendered Mr. Sanderson for the use of the hall and also to Dr. Bradley for his lecture.

President R. A. Potter of Bristol presided at the meeting and among those present were J. S. Kirkham, Newington; Charles W. Lee, Coventry; Herbert F. Potter, Montowese; Lucien Sanderson, New Haven; Dr. E. H. Jenkins, New Britain; W. H. Stanley, New Britain; Mr. Pierpont, Waterbury.

Dances Last Night.

The annual masquerade sociable of Columbia lodge, No. 15, Daughters of Rebecca, I. O. O. F., was held in Harugari hall last night. The grand march was led by the following committee: Floor manager, R. C. Henze. Floor committee—Charles Schmitt, August Schinzel, Joseph Schurk, Fred Von Beren, Theodore Knipping, William Frohlich, Fred Ammann. Committee of arrangements—Adele Hillman, Marie Haut, Justine Wans, Hedwig Pfeiffer, Auguste Parlow, Wilhelmine Stahl, Minna Schubert, Jennie Hennig.

The Philharmonic orchestra furnished music.

The eighth annual concert and ball of the Veteran Volunteer Firemen's Sons association was held in old Union armory. The hall was handsomely decorated in white and blue bunting and presented a very pretty appearance. The grand march was led by E. R. Coogan and Miss Shaw, followed by seventy-five couples. The affair was in charge of the following committees: Grand conductor—E. R. Coogan. Assistant—C. H. Madden. Floor committee—C. S. Madden, chairman, H. F. Coogan, E. P. Miller, B. C. Bonham, C. C. Stebbins, J. I. Higgins, W. E. Miles. Reception committee—J. Q. Bessimier, chairman, J. W. Madden, J. D. Pfeiffer, J. D. Hall, G. A. Greenbaum, M. P. Lyman, J. Y. Peckham. Arrangement committee—S. C. Stebbins, chairman, C. S. Madden, J. I. Higgins, E. R. Coogan, J. W. Madden. Music was furnished by the Philharmonic orchestra.

Delegates were present from the J. J. Dayton hose, R. M. Bassett company of Ansonia, Echo hose of Ansonia, Dickerman hose of Westville, West Haven hose company, Winchester hose and Norwalk hose company of Norwalk. The second annual ball of the employees of the Quinnipiac Brewing company was held at Germania hall last evening. The grand march was led by E. R. Coogan and Miss Shaw, followed by 150 couples. Music by the Philharmonic orchestra.

SPECIAL AND IMPORTANT!

It has been our good fortune several times within a few years to bring out new and popular lines of goods and place them before the public at prices which insured a direct benefit to every purchaser.

Perhaps our ability to do this at a critical period has much to do with our steadily increasing business and enables us to surge ahead while so many are falling behind.

Perhaps, too, it has led you to expect more from C. E. Longley & Co. than you do from others, and in this you shall not be disappointed. The purpose of this advertisement is to call your attention to what is undoubtedly the greatest bargain in a popular line of goods ever shown in this country. It is nothing less than the FARWELL 18-OUNCE, ALL WORSTED

Clay Diagonal Suits

\$10.00!

The standard weight used by merchant tailors and the best clothing manufacturers for all-the-year-round-Clays is the 18-ounce.

Many light weight Clays, 10, 12 and 14 ounce goods, are put on the market because they can be sold cheap, but they are undesirable. Being sleazy they quickly lose their shape and beauty.

Many full weight 18-ounce Clays are made in this country that are all worsted on the face but backed up with cotton. When new they have the appearance of being all worsted, and only good judges can tell the difference, but with a few weeks' wear the worsted face disappears and the cotton stands out in bold relief. Such suits you can buy anywhere for \$10.00 and it is all they are worth.

The goods which we now offer were made by the Farwell Worsted Mills in Central Falls, R. I. They are the standard weight, 18 ounces to the yard. They are every thread and fibre worsted. We recently purchased about 10,000 yards of the goods at a great bargain. Now we propose to give our customers a benefit and incidentally boom our business through what are usually the dull-est days in the whole year.

The coats are cut in four shapes, i. e. Single Breasted Sacks, Double Breasted Sacks, the popular Three-Button Cutaway and the long stylish Regent. They have deep facings, fine serge body linings, and are finished with the narrow, single stitched edges now so fashionable. The price is \$10.00 for either shape or any size from 34 to 48.

We could tell you what they are worth—what the regular retail price is for such a suit—but you might think that we were exaggerating, so you shall estimate their real value. If you are not a good judge of worsted goods bring a friend who is and let him tell you. We solicit an examination and criticisms from the best judges that can be brought forward. Our price you will not soon forget.
